Generating Company Ltd.

**Bartholomew Simiyu**

Director, Greenmillenia Energy Ltd.

**Alfred Achar**

Managing Director, Quaint Energy Ltd.

**Paul Stroud**

Board Member, Akiira Geothermal Limited

You're invited to attend a conversation on unlocking investment in clean energy in sub-Saharan Africa. The lack of financeable power projects in Africa is a key constraint to scaling renewable power and establishing low-emissions development trajectories for the continent's many emerging economies. This conversation, moderated by USTDA Director Leocadia I. Zak, will convene CEOs from African energy companies to discuss how project preparation assistance can help unlock investment in clean energy across Africa.

**Location:**

**Instituto Cervantes  
211 East 49th St.  
New York, NY 10017**
