

INDIA REFINERIES PERFORMANCE OPTIMIZATION REVERSE TRADE MISSION

HOUSTON | CHICAGO | JANUARY 17-24, 2018

The **U.S. Trade and Development Agency** is hosting the India Refineries Performance Optimization Reverse Trade Mission to introduce Indian government and industry decision-makers to U.S. technologies, equipment and processes in the refining sector.

As part of the itinerary, USTDA will host a **Business Briefing and Industry Reception** on Monday, January 22, 2018 in Houston, TX at the **George R. Brown Convention Center from 2:00 PM – 6:30 PM** with a reception to follow at the **Hilton Americas-Houston**. Delegates in attendance will include representatives from India's Ministry of Petroleum and Natural Gas (MOPNG), Indian Oil Corporation Limited (IOCL), Bharat Petroleum Corporation Limited (BPCL), and Hindustan Petroleum Corporation Limited (HPCL), among others. [U.S. businesses](#) are invited to attend!

CLICK HERE TO REGISTER

TOPICS OF DISCUSSION WILL INCLUDE:

- Lowering the use of sulfur
- Emission controls
- Construction and maintenance of refineries
- Turbines/heat exchanges
- Compressors
- Slurry hydrocracking
- Safety

ATTEND THE BUSINESS BRIEFING TO:

- Learn about upcoming project opportunities in India
- Gain market intelligence on India's oil and gas sector
- Hear about upcoming procurements
- Form new business partnerships with Indian decision-makers

BACKGROUND

- In 2016, India's aggregate demand for petroleum products increased by 10.9% from 2015. This growth is expected to increase as India's economy continues expanding
- The nation's largest refiner, Indian Oil Corp. Ltd, plans on investing \$28 billion USD over the next 5-7 years to expand its refining capacity
- India ranks fourth globally in terms of its total refining capacity, behind the United States, China, and Russia
